Keywords: at least five keywords required

The summary must be prepared on a sheet of A4 size (297x210 mm) with all margins equal to 25 mm. The single spaced text should be typed preferably in Times New Roman font with use of the Microsoft Word editor (any version).

Start at the top of the page with the title of your contribution (font size 14 pt., bold, left aligned). Skip two lines below the title and type the authors' name(s) in the following order: initial(s), surname (font size 12 pt., left aligned). Underline the name of the author delivering the paper. On a next line, enter the affiliation of each author with full postal address; telephone and e-mail connections are desirable (12 pt., left aligned).

Then skip two lines and write the keywords.

Afterwards skip two lines and begin your summary text (12 pt., justified). Font size 12 pt. is mandatory since the summary will be reduced (B5 format) for a hard copy booklet, "Book of Abstracts". Therefore, a smaller font may not be legible. One page is allowed for the summary. You can locate any text, equations, figures, references, etc. within the area available. Avoid photographs because reproduction decreases their quality. Anything in colour will be printed as black and white.

The recommended mode of submission is direct uploading at the address hydrogendays.cz using your personal user page (log-in with your personal password) under Submit new paper.

In case you wish to modify anything later, please resubmit your modified summary via your personal user page under Inspecting submitted papers. Resubmission will automatically notify the administrator of database about some change. This is also the easiest way how to announce correction of the text, authors, affiliations, etc. It is valid what is in summary. It is not possible to change the title of the presentation. In such cases please contact the Organising committee by e-mail.

Thank you for observation of the above instructions.
