

Prague, March 18 – 20, 2015

Energetics and Transportation. From the Laboratory to Everyday Life.

## Invitation

Dear Colleagues,

It gives me great pleasure to invite you to the traditional international conference on hydrogen technologies: **Hydrogen Days 2015**.

This event offers a unique networking opportunity for specialists and for those interested in this highly progressive field of research and rapidly growing sector of real-life applications. Its main aim is to bring together experts active in various disciplines of this research field and thus to promote a discussion of the challenges and solutions from various perspectives. Another ambition of this event is to act as a bridge linking specialists from countries with well-established research and implementation of hydrogen technologies those from countries still finding their place in this technology domain. Yet a further aim is to provide an information forum for decision-makers. Clearly, this is a very important aspect which will promote, support and stimulate interest in this technology, so necessary for its successful further development.

I wish all of us an interesting and successful meeting.

**Karel Bouzek***Chairman of the Scientific Committee*

## Conference Venue

The conference will take place in Hotel DAP ([www.daphotel.cz](http://www.daphotel.cz)) in Prague.

Hotel DAP\*\*\* (House of the Army, Prague) is situated just a few minutes from the Prague Castle, the dominant symbol of Prague. From here you can visit all the sights and places of interest and of historical Prague.

The hotel is located in the centre of Dejvice, one of the most important districts of Prague, on the Vítězné náměstí No. 4, near the underground station Dejvická (route A) and the direct bus line to Václav Havel Airport Prague (No. 119, terminus).

Two important technical universities, both members of the Czech Hydrogen Technology Platform - the Czech Technical University in Prague ([www.cvut.cz](http://www.cvut.cz)) and the Institute of Chemical Technology in Prague ([www.vscht.cz](http://www.vscht.cz)) - are located here.
