

INSTRUCTION FOR AUTHORS – HYDROGEN DAYS 2016

Paper submission

Contributions will be presented as **lectures** and **posters**. Authors should indicate the preferred form of presentation. However the scientific committee reserves the right to make the final decision.

All papers must be submitted only with use of the **personal user account**.

Every application has to be accompanied by **one page summary in English** (see Instructions for authors below) uploaded on-line via the **personal user account**.

Application of a paper without summary will not be considered.

The **deadline for submission** of oral or poster presentation is **November 30, 2015**. Posters may be accepted up to the beginning of conference, but only those received by **November 30, 2015** will be included into the Programme and the conference Book of Abstracts.

The authors will be informed about acceptance of their contributions till **January 31, 2016**.

At least one of the authors must register as a participant and settle the registration fee before February 15, 2016, otherwise the paper will be withdrawn from the Final programme.

Authors may update the original summary via their user page (section Inspecting submitted papers) before **January 31, 2016**. However it is not possible to change the title of the presentation. In such cases and after November 30, 2014 please contact the Organising committee by e-mail on info@hydrogendays.cz.

Instructions for authors

The summary (one page, English) has to be prepared according to the instructions How to prepare the summary (**Template of summary:** [How to prepare the summary](#) (*.doc, *.pdf)).

The authors are responsible for the text of their summaries and their appropriate graphical design. The summary that does not meet the requirements given in Instructions for authors will not be accepted and the author will be notified.

Publication policy

All summaries of lectures and posters received before **November 30, 2014** will appear in printed Book of Abstracts.

The PDF files of presentations will be displayed at the Hydrogen Days website after the conference closure by the approval of authors.
